

RANGE ROVER EVOQUE

A dramatic explosion with bright red and white flames and smoke against a black background. The explosion is centered on the left side of the frame, with flames and smoke radiating outwards. The background is a solid black, making the bright colors of the explosion stand out.

2012

The all-new Range Rover Evoque. A Range Rover with an altogether different spirit. The most exciting vehicle in a generation. Bold and sophisticated in design. With clever technology that's innovative, relevant and always intuitive to use. Nothing else looks like it, feels like it, or drives like it. In fact, Range Rover Evoque is a quantum leap in the evolution of Range Rover.

Design

The all-new Range Rover Evoque. Design that is inspired by the vibrancy and energy that defines the greatest cities on earth. A spirit that belongs to a new generation. Bold and uncompromising. Unique. Original. With an attitude that's got whatever it takes. The future transformed into stunning reality.

Unashamedly on-road with an all-new chassis, Range Rover Evoque provides an engaging blend of dynamic and sporty handling with impressive refinement. The lightweight, compact footprint of the vehicle and the low centre of gravity facilitate both quick responses and extraordinary agility. And with the availability of Adaptive Dynamics with advanced MagneRide™ dampers there is an optimum balance between confident, nimble handling and a supple, controlled ride.

Range Rover Evoque tackles all surfaces and all weathers, using legendary Land Rover all-terrain technologies. It is smaller, lighter – the most efficient Range Rover... ever. A true Range Rover in compact form, a new class of SUV.

Available in two distinct body styles. Range Rover Evoque and Range Rover Evoque Coupé. Bold, assertive design that is also available in three distinct derivatives; Pure, Prestige and Dynamic – each one offering a tempting array of choices and technology.

Range Rover Evoque

The five-door version, with its sleek, striking coupé design and a more practical profile to suit specific lifestyle needs.

Range Rover Evoque Coupé

The compact premium crossover, with its breathtaking contemporary design. A bold, new interpretation of classic Range Rover design cues with a dynamic profile and powerful stance.

Exterior design

Utterly contemporary, with a sporty, dynamic profile: Range Rover Evoque creates a new class it can call its own. It offers a new interpretation of classic Range Rover design cues including the signature clamshell bonnet, the floating roof and the prepared-for-anything 'wheel at each corner' stance. There's a new, dramatic rising beltline – a muscular shoulder runs the length of the vehicle – and a unique, distinctly athletic taper to the roofline which is emphasised by the black pillars. Range Rover Evoque always makes an entrance. It is unmistakably Range Rover

in its confidence with the bold horizontal graphic that is created by the perforated two-bar grille and distinctive headlamps.

Superbly designed. Carefully created by Range Rover designers to give more opportunity for individual expression and to make every journey more personal. It is the true Range Rover experience on a compact scale. The striking exterior design conveys an immediate sense of luxury with its precision build quality and

the use of eye-catching metallic finishers or sophisticated details such as the vents on the bonnet and at the side of the vehicle, as well as the jewel-like characteristics of the front and rear lamps with their LED signature lighting and the tapering blade indicator clusters.

Range Rover Evoque's advanced lighting technology achieves outstanding performance as well as providing some of the vehicle's most striking signature

design elements. The innovative LED lighting systems* are used to create the unique graphics of the front daytime running lights and complex 3D 'petal' design in the rear lamps. Night-time driving is also enhanced with the optional availability of adaptive Xenon headlamps. These optional headlamps have an adaptive feature to provide added illumination and can be upgraded with Automatic High Beam Assist which detects light from oncoming traffic and switches automatically between high and dipped beams as appropriate.

*Certain models only.

Pure

The purest expression of the Range Rover Evoque design form and intent.

Prestige

The ultimate in Range Rover Evoque luxury with an exterior that offers excitement and an interior that is sheer indulgence.

Dynamic

Range Rover Evoque in its boldest form with an exciting Dynamic exterior profile including unique bumpers and sills that incorporate striking gloss black detailing, plus an exclusive sports theme interior for true individuality.

Sports command driving position

Range Rover Evoque introduces the new Sports Command Driving Position which offers a new take on the feeling of control and command that is an integral feature on every Range Rover. The driver sits lower, 'in' the vehicle, cocooned by the interior with all important information clearly visible and all controls easy to reach. The result is a drive that is sportier than ever while retaining the legendary view of the road ahead and the surrounding environment.

Interior shown: Ambiance Ivory Oxford leather seats with Espresso contrast stitch.

Luxury finishes

The same ethos of luxury, quality and attention to detail that goes into every other, larger Range Rover. The same ethos is behind the materials. The fine leathers. The authentic metal and real wood finishers and innovative recycled materials. Whichever Range Rover Evoque you choose, it's a true Range Rover.

Depending on your choice of Range Rover Evoque model, there are two grades of quality leather available. Prestige and Dynamic Plus models even feature Oxford leather with its beautifully soft, high-grade hides which have been specially selected for their tactility and appearance. The finest twin-needle stitching also features on Range Rover Evoque. From its length and direction, to its colour and the

excellence of the thread and even the size and shape of the needle: it all guarantees the highest quality finish. The luxury in Range Rover Evoque also extends to the rear accommodation which offers generous legroom and provides a surprisingly spacious environment.

Features

Even as the driver activates the remote key fob to unlock Range Rover Evoque, the vehicle stirs, illuminating puddle lamps that project the unique 'Range Rover Evoque' graphic onto the ground. Once inside the vehicle, start up is a moment of pure theatre. The automatic transmission's Drive Select rotary shifter purposefully rises from the centre console to 'greet' the driver. The needles on the twin dials dramatically sweep across the face of the instrument panel. Living with Range Rover Evoque is rewarding, memorable and exciting.

Interior shown: Ivory Oxford leather seats with Espresso contrast stitch.

Lighting

Range Rover Evoque is enhanced with ambient interior LED mood lighting. This can be configured to suit personal tastes with a choice of five colours and a variety of brightness settings. To add a real sense of occasion automatic colour changes are activated when the driver chooses Dynamic Program on Terrain Response®, changing the ambient lighting to red.*

*Only available with Adaptive Dynamics

Panoramic glass roof

There is also the choice of an optional full-size, fixed panoramic glass sunroof, cleverly engineered to maximise its length and width to create a sensation of space and light, as well as providing uninterrupted views of the surrounding environment. Importantly the toughened glass has a dark tint to protect occupants and the interior from the sun's rays. A full-sized interior blind is also provided for those who may prefer a more private experience.

Lightweight materials

Starting at just 1600kg and using a range of advanced lightweight materials, Range Rover Evoque is the lightest Range Rover ever. There are key weight-saving materials throughout the vehicle, including an aluminium bonnet and roof and a magnesium cross car beam. The front fenders and tailgate assembly are constructed from composite materials. Even the thickness of the acoustically laminated windscreen is reduced to save weight and improve fuel efficiency, performance and handling. The interior has also been independently tested by a leading international consultancy to help ensure that all occupants enjoy an allergy-free environment. This helps reduce potential allergenic symptoms for people who suffer from allergies and for those with sensitive skin.

Si4 turbo petrol engine

The Si4 petrol engine is a 2.0 litre engine in a lightweight all-aluminium unit with the latest direct-injection technology, advanced turbocharging and twin independent variable valve timing to help lower fuel consumption and CO₂ emissions by up to 20 percent compared with traditional larger capacity engines delivering equivalent performances. The engine is fitted with a 6-speed automatic transmission that has been engineered to improve fuel economy and that features Drive Select, an advanced rotary gearshift with steering wheel mounted paddle controls. It also delivers a rich, powerful engine sound during strong acceleration and features a unique exhaust manifold for quicker warm-up and lower emissions, a low friction design and a state-of-the-art electronic management system. This includes Smart Regenerative Charging, which prioritises the charging of the battery when the vehicle is decelerating to capture wasted kinetic energy and reduce fuel consumption.

TD4 and SD4 turbo diesel engines

The latest 2.2 litre turbo diesel, available in two forms TD4 (150hp) and SD4 (190hp), delivers superb torque, responsive performance and impressive refinement. The engines provide power on demand and a very broad torque curve. SD4 engines can be specified with either 6-speed automatic or 6-speed manual transmissions. TD4 is available with 6-speed manual transmission only. Diesel vehicles with the manual transmission feature an intelligent Stop/Start system to reduce the fuel consumption of these engines by a further 8 percent.

129
g/km

eD4 turbo diesel engine

The 2.2 litre turbo diesel is also available as an eD4 (150hp) 2WD version which shares similar characteristics with the other diesel engines yet delivers CO₂ emissions of 129g/km on Range Rover Evoque Coupé and 133g/km on Range Rover Evoque. eD4 diesel 2WD is available with 6-speed manual transmission only.

All diesel engines also feature Smart Regenerative Charging, which charges the battery when it is most economical to do so.

1000 TIMES PER SECOND

On-road dynamics

With its lightweight and more compact footprint, Range Rover Evoque offers the enthusiast driver quicker responses and greater agility. Standard on Dynamic models and available as an option on Prestige SD4 models, Adaptive Dynamics with advanced MagneRide™ monitors vehicle movements at least 1000 times per second, reacting to driver or road inputs instantaneously to give greater control and help minimise body roll, providing a balanced, flat ride. The system will even sense off-road conditions and optimise damping accordingly.

Range Rover Evoque features the latest in power assisted steering technology. EPAS (Electric Power Assisted Steering) delivers accurate, consistent steering and agile cornering. Power assistance is speed-sensitive for lightness and responsiveness at low speeds and increased firmness at higher speeds. When compared with a conventional power steering system, EPAS is more energy efficient and can reduce fuel consumption as well as CO₂ emissions by up to 3 percent.

DYNAMIC PROGRAM

GENERAL DRIVING

GRASS/GRAVEL/SNOW

MUD & RUTS

SAND

All surface

Like every Range Rover vehicle, Range Rover Evoque optimises performance and capability in all on and off-road conditions. It does this by employing a suite of innovative technologies including Terrain Response[®]*, which adapts Range Rover Evoque's engine, transmission and electronic systems to maximise drivability, comfort and traction.

There are four Terrain Response[®] settings: General Driving, Grass/Gravel/Snow, Mud & Ruts and Sand. A fifth Dynamic setting is added when Adaptive Dynamics is specified.

*Not available with 2WD

GENERAL DRIVING

GRASS/GRAVEL/SNOW

MUD & RUTS

SAND

知
修
車

All weather

Other cutting-edge technologies include the Land Rover patented Hill Descent Control (HDC)* which assists with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel. Gradient Release Control (GRC)* which is designed to prevent the vehicle 'running away' on a steep incline when the driver inadvertently releases the brake and Hill Start Assist which is designed to prevent roll back after a hill start.

There is also Dynamic Stability Control (DSC). Designed to correct over- and under-steer, DSC interacts with the engine and brakes to help maintain stability. Electronic Traction Control (ETC) senses when wheel slip is occurring and uses the braking system to minimise wheel spin. Roll Stability Control (RSC) detects critical levels of roll and applies braking to increase the turn radius to help reduce the likelihood of a rollover.

*Not available with 2WD

Audio

Range Rover Evoque is packed with clever, relevant technology including state-of-the-art connectivity. This includes Bluetooth® for both hands free connection, with a compatible mobile phone, to the vehicle's in-built phone system and audio streaming for the enjoyment of personal music from a portable Bluetooth® device via the audio system. Essential connectivity for iPod®, MP3 and USB memory stick is also provided via direct inputs.

All audio options on Range Rover Evoque achieve the highest possible sound quality with two In-Car Entertainment Systems available. They offer unsurpassed performance and enjoyment for driver and passengers alike.

By working with Meridian™, a world leader in audio technologies and digital sound processing, Land Rover has also developed two advanced audio systems to delight the most discerning music fans.

The 380W Meridian Sound System features 12 channels and 11 loudspeakers including a dual-channel subwoofer. The Meridian Surround Sound System produces an incredible 825W of surround sound through 15 channels and 17 loudspeakers including a subwoofer. Meridian systems offer unique technologies that provide superior audio performance within the confined space of a vehicle. Digital Signal Processing (DSP), for instance, allows a speaker to perform with the characteristics of a speaker of eight times the volume.

The result is the very best in world-class audio reproduction with sound that is real and totally convincing...it's just as the artist intended. Also pioneered by Meridian is Trifield technology which ensures a perfect stereo image for each occupant, producing an holistic sound within the cabin to further improve the concert-like experience. A special feature, Dynamic Volume, detects variations in the cabin and balances out the sound quality so that it's consistent throughout the car.

iPod is a registered trademark of Apple Inc., registered in the US and other countries. The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence.

Interior technologies

Range Rover Evoque's interior features a suite of the latest technologies to provide driver and passengers with the most comfortable, most enjoyable experience possible.

All driver displays present clear, useful information. The centrepiece of the vehicle and the hub for controls and infotainment is the 8-inch colour Touch-screen in the fascia. This provides the latest in technology with exceptionally clear graphics. The availability of a dual view functionality* with the Touch-screen allows the driver and front seat passenger to watch separate images simultaneously on the same screen.

Also available is a highly intuitive, powerful voice control system that includes the latest 'Say What You See'* technology. And of course, connectivity is state-of-the-art with Bluetooth® streaming as well as USB/iPod® connections for handsfree phone operation and the driver's choice of listening while on the move.

The steering wheel houses controls for convenient features that are standard on Range Rover Evoque. These include Cruise Control and primary audio controls.

There are also separate twin 5-way toggle switches on the steering wheel to maximise control and ease-of-use of the Infotainment systems and Driver Information Display. The Driver Information Display's 5-inch full colour screen, conveniently located between the two instrument dials, presents primary vehicle information such as temperature and fuel levels and Terrain Response® settings as well turn-by-turn navigation information and 'Say What You See' voice control prompts.

The Hard Disk Drive (HDD) Premium Navigation system* allows features to be accessed more quickly – for instance, route finder and route recalculation times are significantly reduced – helping minimise delays in determining directions for the driver. The system includes an 'eco' feature, which shows the most economical route to your destination.

Rear Park Aid. This convenient feature is standard on Range Rover Evoque. Other advanced driver technologies and convenient features include the latest Park Assist function*, Front Park Aid*, a Rear Camera system* and a Surround Camera system*, as well as powered electric tailgate* and keyless entry*.

Range Rover Evoque's Rear Seat Entertainment System has the ability to play high quality DVD Video and route it through the 8-inch screens located in the back of the front headrests as well as to the front seat passenger's display on the dual view Touch-screen.

The system can also play MP4 Video Files** stored on a USB Device plugged into a USB Port located in the vehicle. Analogue/digital television channels can be watched on the rear screens and front seat passenger display^Δ.

Every Rear Seat Entertainment system comes with a Touch-screen remote control, which allows intuitive and user friendly operation. Two wireless digital headphones featuring WhiteFire® technology provide high quality sound and clarity to occupants using the Rear Seat Entertainment System*.

*Optional feature on certain models.

**Please contact your Land Rover dealership for detailed file compatibility information

^ΔRequires the television feature.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence.

Park assist, surround camera, blind spot monitoring

Park Assist option. This useful latest generation, advanced automated technology appears for the first time on a Range Rover. Helping the driver to parallel park in tight parking spots (as little as 1.2 times the length of the vehicle), Range Rover Evoque uses ultrasonic sensors to steer while the driver operates the accelerator, brake and clutch. Real time information is also displayed on the Driver Information Display to aid the driver through each stage of the manoeuvre.

The optional Surround Camera system utilises five discreetly placed digital cameras to relay an almost 360 degree view around the vehicle to the 8-inch Touch-screen display on the fascia. The system provides a number of driver-assist features and can enhance the field of view at junctions and facilitate parallel and reverse parking as well as aiding other on-road and off-road manoeuvring. The five digital cameras are housed around the exterior of the car – two at the front, one on either side of the vehicle and one at the rear.

Tow Assist, part of the Surround Camera System, is a next generation reversing aid that predicts the rearward trajectory of both vehicle and trailer. This helps the driver perform more accurate manoeuvres and is selected from the Touch-screen menu. Wide-view cameras on the vehicle give a clear field of vision; guidelines are superimposed over the resulting image to highlight the predicted reversing path for the vehicle and trailer.

Optional Blind Spot Monitoring is also available. This system uses side-mounted radars to warn of vehicles in the driver's blind spot. A bright amber warning icon is illuminated in the appropriate door mirror when a hazard is identified.

Choices

You're already making a statement with your Range Rover Evoque. Now you can express your individuality even more with one of the fabulous contrast colour roof options.

Vehicles shown from left: 1. Range Rover Evoque Coupé Prestige in Indus Silver with panoramic roof. 2. Range Rover Evoque Coupé Prestige in Colima Lime with Indus Silver contrast and panoramic roof. 3. Range Rover Evoque Dynamic in Mauritius Blue with Fuji White contrast roof. 4. Range Rover Evoque Prestige in Santorini Black with matching body coloured roof. 5. Range Rover Evoque Dynamic in Firenze Red with Black contrast roof.

†Accessory wheel rim only, part number LR024421. To order the Range Rover Centre Cap for this wheel please quote part number – LR027409, Bright Finish Wheel Nut Kit – LR001381, Bright Finish Locking Wheel Nut Kit – LR031381, Range Rover Tyre Valve Caps – LR027663.

Please note: When choosing vehicles fitted with specific wheel and tyre combinations or optional wheels and tyres, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tyres may offer certain styling or driving benefits, but may be more vulnerable to damage. Please discuss your requirements with your Land Rover dealership for further details.

For information on Snow Traction System, please refer to the accessories section, page 69.

Interior finishers

The solidity and substantiality of real metal. Authentic aluminium finishers are used on every Range Rover Evoque. Each piece goes through more than twenty distinct processes resulting in exquisitely crafted detailing of superior quality with that telltale cold touch.

And while the use of traditional materials is reinvented with new imagination and creativity, Range Rover Evoque also innovates with the latest recycled materials. The use of materials that are recycled, as well as exuding luxury and quality, is an integral part of the Range Rover Evoque 'philosophy'.

In fact, 16kg of premium recycled materials make a significant contribution to Range Rover Evoque. That's the equivalent of reusing one thousand 500ml plastic bottles. A further 21kg of natural materials are used in the vehicle, including leather for the seat covers, instrument panel and door casings.

FEATURES BY DERIVATIVE

PURE

Engine and Transmission

- Misfuel Protection Device
- Diesel Particulate Filter (DPF).

Suspension and Driving Dynamics

- Anti-lock Braking System (ABS)
- Emergency Brake Assist (EBA)
- Four-wheel Electronic Traction Control (ETC) (two-wheel on eD4)
- Dynamic Stability Control (DSC)
- Hill Descent Control (HDC) (does not feature on eD4)
- Roll Stability Control (RSC)
- Electric Park Brake (EPB)
- Electronic Power Assisted Steering (EPAS)
- Terrain Response® (does not feature on eD4)
- Hill Launch Assist (HLA)
- Cruise control.

Wheels

- Land Rover Tyre Repair System
- Locking wheel nuts
- 18 inch Alloy Wheel 'Style 2' Sparkle Silver Finish (235/60).

Lighting

- Headlamps – Bi-Halogen & manual headlamp levelling
- Hazard warning lights under heavy braking.

Exterior Features

- Solid paint
- Bonnet louvres in Dark Atlas (Coupé only)
- Dark Atlas grille, side fender blades & tailgate finisher (Coupé only)
- Brunel grille, side fender blades & tailgate finisher (5-door only)
- High gloss black waist trim finisher
- Exterior mirrors in body colour
- Rear spoiler
- Rear Evoque badge in black
- Techno silver sump guard outer finisher with white silver inner.

Interior Features

- Rear seat – 3 seat bench with 60/40 split (Coupé includes no-cost option for 2 individual rear seats in place of bench seat)
- Seats – grained leather, manual driver's adjustment including recline, electric height and manual passenger's recline (6/4 way) (electric seats feature for Coupé derivatives)
- Proximity sensing & touch detection for overhead map lights
- Stowage – covered centre console
- Anchor points in loadspace
- Steering wheel – with controls for audio system, Bluetooth® & cruise control
- Illumination in footwell, glovebox & loadspace
- "White lighting", illumination in door release courtesy light featuring "theatre delay dimming" & maplights
- LED interior mood lighting – customer configurable to red, white and blue
- Driver & Passenger Sun Visor with Illuminated Mirror
- Loadspace cover
- Oxford leather gear knob (manual derivatives only) and steering wheel
- Satin brushed Aluminium horizontal IP finisher
- Satin brushed Aluminium centre console finisher
- Auxillary power sockets – 1 front, 1 loadspace
- Height adjustable front seat belts
- Child seat ISOFIX anchor points x 2
- Audible seat belt reminder
- Rear centre head restraint (3 seat bench only).

Comfort and Convenience

- Rear Parking Aid
- Push button start
- Exterior mirrors featuring electric adjustment, heating & direction indicators
- Heated rear screen
- Global opening for all windows
- Key control – remote lock/unlock/double lock/lights on/tailgate open
- Automatic climate control with air filtration
- Heated front seats
- Airbags – front driver, front passenger, knee (driver), side curtain for driver, front passenger and row 2.

Information, Communication and Audio

- 3.5mm audio auxiliary input socket
- Audio System – 380 watt Meridian Sound System with radio and single slot CD player, MP3 disc and file compatibility, subwoofer and 10 speakers
- Digital radio (DAB)
- 8" high resolution Touch-screen
- USB connectivity x 2 (for connection of USB connected storage devices to enable playback of compatible audio files)
- Portable audio connectivity interface
- Bluetooth® telephone connectivity plus streamed audio.

PURE TECH

(specification in addition to PURE)

Exterior Lighting

- Automatic headlamps
- Powerwash headlamps.

Comfort and Convenience

- Front Parking Aid
- Rain sensing windscreen wipers
- Heated front windscreen & washer jets.

Information, Communication and Audio

- HDD Premium navigation system, includes hard disk drive audio server (with lossless digital storage for up-to 10 CDs).
- TMC Dynamic route guidance
- Voice control – "Say what you see" intuitive voice control.

DYNAMIC

(specification in addition to PURE)

Suspension and Driving Dynamics

- Adaptive Dynamics – including Dynamic Mode on Terrain Response® & MagneRide™ suspension control system.

Wheels

- 20 inch Alloy Wheels 'Style 6' Sparkle Silver Finish (245/45).

Exterior Lighting

- Xenon headlamps with LED signature lighting & automatic headlamp levelling
- Automatic headlamps
- Powerwash headlamps
- Front fog lamps.

Exterior Features

- Dynamic front bumper with Dynamic profile sump guard
- Dynamic side sills (body colour)
- Dynamic rear bumper
- Dynamic grille, side fender blades and tailgate finisher in gloss black
- Dynamic exhaust (including skid plate)
- Bonnet louvres in gloss black (Coupé only)
- Aeroflip on rear spoiler in gloss black
- Tailgate finisher in gloss black
- Exterior mirror caps in gloss black
- High gloss black waist trim finisher
- Rear Evoque badge in red.

Interior Features

- Seats – Dynamic Grained Leather with perforated mid-section, electric driver adjustment including recline, height, lumbar support, memory and electric passenger's recline, memory and lumbar support (6/4 way)
- Aluminium pedal finisher kit
- Illuminated tread plates
- Textured metal horizontal IP finisher
- Textured metal centre console finisher
- Carpet mats with edging
- Dynamic Perforated leather gear knob (manual derivatives only) and steering wheel.

Comfort and Convenience

- Front Parking Aid
- Rear Camera Parking Aid including hitching guidance
- Exterior mirrors – electric adjustment, heated, power-folding, puddle lamps, direction indicators, memory function & auto dipping in reverse gear
- Rain sensing windscreen wipers
- Heated front windscreen & washer jets.

Information, Communication and Audio

- HDD Premium navigation system, includes hard disk drive audio server (with lossless digital storage for up-to 10 CDs)
- TMC Dynamic route guidance
- Voice control – "Say what you see" intuitive voice control.

DYNAMIC LUX

(specification in addition to DYNAMIC)

Comfort and Convenience

- Auto-dimming rear view mirror
- Surround camera system with Tow Assist
- Park Assist system
- Keyless entry system
- Blind spot monitoring
- Fixed panoramic glass roof including power blinds
- Powered electrical tailgate (open & close)
- Automatic climate control with air filtration and air quality sensing for automatic recirculation.

Information, Communication and Audio

- Audio System – 825w Meridian Surround Sound System with radio and single slot CD player, MP3 disc and file compatibility, subwoofer and 16 speakers
- 8" high resolution dual-view Touch-screen (includes WhiteFire® headphones x 1)
- Analogue/digital television.

PRESTIGE

(specification in addition to PURE)

Wheels

- 19 inch Alloy Wheels 'Style 5' Diamond Turned Finish (245/45).

Exterior Lighting

- Xenon headlamps with LED signature lighting & automatic headlamp levelling
- Automatic headlamps
- Powerwash headlamps
- Front fog lamps.

Exterior Features

- Metallic paint
- Atlas grille, side fender blades, lower door cladding insert & tailgate finisher
- Bonnet louvres in Atlas (Coupé only)
- Exterior mirror caps in body colour
- Waist finisher in bright finish (5-door), gloss black (Coupé)
- Rear Evoque badge in silver.

Interior Features

- Seats – PRESTIGE Oxford leather, electric driver's adjustment including recline, height, tilt, lumbar support, memory and electric passenger recline, height, lumbar support (8/6 way)
- Satin brushed horizontal IP finisher (wood finisher is a no-cost option)
- Premium carpet mats with edging.

Comfort and Convenience

- Front Parking Aid
- Rear camera Parking Aid including hitching guidance
- Exterior mirror featuring electric adjustment, heated, power-folding, puddle lamps, direction indicators, memory function & auto dipping in reverse gear
- Rain sensing windscreen wipers
- Heated front windscreen & washer jets.

Information, Communication and Audio

- HDD Premium navigation system, includes hard disk drive audio server (with lossless digital storage for up-to 10 CDs)
- TMC Dynamic route guidance
- Voice control – "Say what you see" intuitive voice control.

Prestige

An exterior that can be perfectly tailored to suit the most demanding individual tastes, featuring metallic details and unique 19 inch alloy wheels. The sheer indulgence of an interior wrapped almost entirely in fine Oxford leather. There are five luxurious design themes and immaculate craftsmanship throughout – real wood and real metal finishers and premium leather graced with twin-needle stitching. This is Prestige.

■ Standard □ Optional - Not Available

*Manufacturer's data according to new government test regulations.

**Including fluids, 90% fuel and 75kg driver.

†If towing for commercial gain, please refer to your Land Rover dealership for information relating to digital tachograph installation.

Fuel consumption figures: The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle with which this information may be supplied. Vehicles are not individually tested and there are inevitable differences between individual vehicles of the same model. The vehicle may also incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption.

Accessories

It's your Range Rover Evoque. Unmistakably so with a range of exclusive accessories that reflects your lifestyle and your personality. Importantly, Range Rover Evoque accessories can be added at any stage during the vehicle's life...not just when it's new. A selection of accessories is illustrated here. Range Rover exclusive accessories are designed and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Visit www.rangerover.co.uk for more information.

Please note: The vehicle shown above includes Stainless Steel Side Tubes – VPLVP0071, 20 inch Alloy Wheels Gloss Black Finish – VPLVW0071, Front and Rear Mudflaps – VPLVP0065/VPLVP0069 and Roof Mounted Bike Carrier – LR006847. The alloy wheels shown on page 41 may also be available as an accessory fitment. Please see your Land Rover dealership for further details.

Featured Range Rover bike is a concept model only.

Land Rover Stolen Vehicle Tracking System

Land Rover Trackstar is the pan-European vehicle tracking system for Land Rover. The system complies with Europe's highest insurance standards and is available in two formats Standard and Advanced. The system constantly monitors the vehicle, so you can be assured protection is provided 24 hours a day, 7 days a week both in the UK and in European countries that have adopted the GSM mobile phone system. Please see your Land Rover dealership for further details.

At Land Rover we do this by investing in four key areas:

e_TERRAIN TECHNOLOGIES. EFFICIENT POWER SYSTEMS, LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS

A joint £800m investment into new technologies designed to reduce CO₂ emissions and improve fuel consumption. We are targeting a 25 percent reduction in joint fleet average tailpipe CO₂ emissions by 2015, as part of our carbon management plan. The all-new Range Rover Evoque and Freelander 2 vehicles include innovative stop start technology (on the diesel manual gearbox) and Intelligent Power Systems Management (IPSM) with regenerative braking, just two examples of e_TERRAIN TECHNOLOGIES that reduce our vehicles carbon footprint. What's more, Range Rover's Adaptive Dynamics System constantly monitors vehicle performance, to enhance driving and emissions efficiencies.

FACT

We will use life cycle assessment to understand the environmental impact of our vehicles, including the use of e_TERRAIN TECHNOLOGIES, beginning with Range Rover Evoque.

SUSTAINABLE MANUFACTURING. USING FEWER RESOURCES AND CREATING LESS WASTE

World class manufacturing facilities, certified to ISO14001 since 1998. As a company we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based on 2007 levels. Our activities include factory energy efficiencies, cutting transport miles and the carbon offset of all CO₂ emissions from manufacturing assembly. But it doesn't stop there. Every new vehicle is designed to be 85 percent recyclable and reusable, in addition 95 percent recoverable and reusable, with 10 percent specifically for energy recovery.

FACT

Turning waste food into energy in a trial at our headquarters in Gaydon, has diverted 43 tonnes of waste from landfill and saved 3.7 tonnes of CO₂ emissions.

CO₂ OFFSETTING. INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS

For every tonne of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent tonne of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia. Independently administered by ClimateCare and Forum for the Future, CO₂ offsetting allows us to take action now, to reduce our impact on the environment, as part of our integrated carbon management plan.

FACT

We plan to offset approximately 3,000,000 tonnes of CO₂ emissions by 2012.

CONSERVATION AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION AND SOCIETY'S GAIN

Our vehicles are designed for purpose, so are used by conservation and humanitarian organisations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

FACT

In 2010 Land Rover launched a new three-year global initiative with the IFRC entitled 'Reaching Vulnerable People Around the World'. Land Rover has supported the IFRC's life saving work since 2007 and to date has given over £4m in vital funding and vehicle support to help vulnerable people around the world.

LAND ROVER FINANCE Land Rover finance offers a wide range of competitive finance and insurance plans, developed exclusively for Land Rover owners and tailored to meet all your individual requirements*. With Land Rover Finance you are dealing with people who have a close working relationship with your local dealership and who are as passionate about Land Rover as you are. Your Land Rover dealership will match your personal or business requirements to the most appropriate finance plan, provide you with quotations and process your application.

WARRANTY Every new Land Rover supplied by Land Rover UK comes with a standard three year unlimited mileage warranty. Please apply to your dealership at the time of purchase for full details of the manufacturer's terms and conditions.

*Finance is subject to status and conditions. Available to over 18's in the UK only.
Guarantees/indemnities may be required. Certain categories of business user may be excluded.

IMPORTANT NOTICE: This publication is intended for use in the United Kingdom and whilst Land Rover take the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvement and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Some vehicles are shown with accessories or optional equipment fitted.

All Land Rover Approved Accessories fitted by a Land Rover dealership within one month or 1,000 miles/1,600 kilometres (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover dealership who will be pleased to advise you on current specifications and any query you may have. Distributors and dealerships are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover dealership. Distributors and dealerships are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.
